Ivan Holovko

Senior Front-end Developer

I am a passionate front-end developer with a strong desire to create intriguing and user-friendly applications. I specialize in front-end development, including application development, website layout, and maintenance.

I take pride in simplifying complex tasks and designing intuitive user interfaces. I am dedicated to staying updated with the latest technologies and trends in the industry. Beyond coding, I enjoy indulging in PlayStation gaming, exploring my culinary skills, and cherishing quality time with my family.

Throughout my professional journey, I have demonstrated strong soft skills, actively contributing to collaborative team environments. I am committed to continuous learning and enjoy sharing my knowledge with others. I thrive on embracing emerging technologies and seeking opportunities to further develop my expertise.

Work Experience

Senior React Developer
Aug 2023 - present

Set up a monorepository, added and maintained several Next.js projects and libraries. Also moved away from external UI libraries by developing a custom one for reuse across other projects.

Technologies: **Next.js, Zustand, Turborepo, Tanstack Query & Table, i18n, yup and tailwind.**

Senior React Developer
Worktech labs
Mar 2023 - Aug 2023
Stockholm, Sweden

We have successfully completed challenging tasks, developed innovative functionalities, and enhanced the user experience of our products.

Technologies: **Next.js, Next Auth, Mantine, Zustand, zod and Ramda.js**

Senior React Developer
Octal Security
Feb 2022 - Mar 2023
Kyiv, Ukraine

One of my significant accomplishments was single-handedly creating and successfully releasing a project. I utilized modern technologies at the time, such as Redux Toolkit Query and React Hook Form.

Technologies: **React, Redux Toolkit & Query, TypeScript, React Hook Form, MSAL React, Material Ui, Jest.**

Middle React Developer
Luxoft
Apr 2021 - Mar 2022
Kyiv, Ukraine

On this project, I optimized many work processes, implemented functionality to process Excel files, and achieved test coverage of over 50% for the project.

Technologies: **React, Redux, Thunk, TypeScript, Jest, AG Grid React.**

Front-end Developer
Evoplay(gambling)
Oct 2018 - Apr 2021
Kyiv, Ukraine

*10 projects (**React, TS, ESlit, GraphQL, Sass**) and 5 projects (**Twig, JS, JQuery, Less, GraphQL**) – Websites with identical functionality and components, varying in content and styles:*

- *Added a wide range of new functionalities.*
- *Worked extensively with CSS and canvas animations.*
